## NOZBART® Ultra-Slim Mini LED Pool Lights

An ultra-slim, high-performance LED pool luminaire engineered for concrete, liner, panel, and polyester pools. Designed with premium materials, advanced sealing technology, and energy-efficient SMD LEDs to deliver long-lasting, elegant underwater illumination.

### Key Features

- **Ultra-Slim Design :**  
3 mm face rim thickness and 79.5 mm body depth - the thinnest and most elegant pool light in the world.
- **Lifetime Leakproof Guarantee :**  
Powered by surface-controlled cold welding technology and IP68 insulation for permanent sealing.
- **High Energy Efficiency :**  
Advanced SMD LEDs provide powerful lighting while saving energy.
- **Corrosion Resistance :**  
Features 316-grade stainless steel connection hardware, making it perfect for seawater applications.
- **Perfect Retrofit Solution :**  
Designed to function as a direct replacement bulb for standard pool light niches.

### Application Areas

Concrete pools, liner pools, panel-wall pools, polyester pools; indoor/outdoor pools; freshwater, seawater

Parameter	Value
Face Rim Thickness	3 mm
Niche Depth	79.5 mm
Ingress Protection	IP68
Maximum Water Depth	5 m
Operating Voltage	12 V DC
Light Source	High-efficiency SMD LEDs

Parameter	Value
Material Options	316 SS / 304 SS / ABS (White/Anthracite)
Color Options	RGB - White - Blue - Warm White
Lumen	1980 - 1980 - 1320 - 1000
Cable Length	1 m
Operating Environment	Underwater use only
Water Compatibility	Freshwater, seawater
